City of New Brunswick Pilot Project

Potholes is a project developed to help cities manage infrastructure maintenance. Was chosen by Addteq to become a summer pilot project for the city of New Brunswick.

What Am I Eating?

Android - Mashery API

HackRU Top 10 Prize

Best Use of Mashery API

"What am I Eating?" uses a barcode scanner to retrieve the UPC from a food item and returns the nutrition facts using the FoodEssentials API provided by Mashery.

CareSwears

Python - Flask - Bootstrap - Digital Ocean

www.challengepost.com Staff Pick of the Week

CareSwears is a digital swear jar that uses the Chrome WebKit Speech API to check when you swear, and donates \$0.25 to charity each time.

TroubleTrakker

Python - Flask - HTML - CSS

For my Internship, I developed a program to streamline the way teachers submit their issues to the Tech Department. I reverse engineered the existing ticket system, and wrote a simpler, better designed program.
